Cycle rally reaches Hassan

Hassan: The month-long cycle rally, organised by Odanadi, a Mysore-based organisation to create awareness on human trafficking, women health care and conservation of natural resources reached the city on Thursday. The rally that started on May 25, will conclude in Mysore after passing through Mandya. Girls from America, Belgium, Canada and Ireland are part of the rally. Pamphlets focussing on equality for women and human trafficking were distributed.

Speaking to Express, Paula Arab, who is working for a daily in Canada, said she came to know about the rally through a yoga school in Canada.

"Through this initiative, we hope to make at least a few people aware of the crime and the need to protect women and children from such atrocities," she added. -ENS
